#### CONDITIONS OF GRANT

Licensee MUST SIGN on the face hereof before operation of the radio station begins.

When a class of operator privileges has been inserted on this license by the Commission, the person named herein as licensee is authorized to be the control operator of an amateur radio station licensed by this Commission only in the manner and to the extent provided by the class of privileges inserted herein.

When an amateur station call sign has been inserted on this license by the Commission, the person named herein as licensee is authorized to establish an amateur radio station at the fixed operation location herein specified. If operation of the station by remote control is authorized, the location of the control point is also shown. The station shall be identified by the call sign specified herein. When in portable or mobile operation, the station identification shall so indicate.

All authority hereby granted shall be exercised in accordance with the provisions of all treaties, laws, orders, rules and regulations that apply to amateur radio operators and amateur radio stations licensed by the Commission.

This license shall not vest in the licensee any right to operate the station nor any right in the use of authorized frequencies beyond the term hereof, nor in any other manner than authorized herein. This license is subject to the right of use or control by the Government of the United States under section 606 of the Communications Act of 1934, as amended.

#### ATTACHMENT TO AMATEUR RADIO LICENSE

Washington, D. C. 20554

June 28, 1992

Jack and Ginny Haring  
2113 Edgehill Drive  
Furlong, Pa. 18925

Dear Jack and Ginny,

It was great seeing you both at the recent re-dedication of WE3TKQ even though there was little time for socializing.

In any event, I enjoyed being there and extend my thanks to you Jack for your telephone call regarding the re-dedication.

If you recall, I said I would send Ginny some information and photos of past Phil-Mont activities. I didn't have your new address until recently. Hopefully, you haven't moved since I obtained this address.

I've gathered together several photographs taken over the years. I'm sure you won't use then all Ginny. However use what you wish and either keep the rest or return them to me.

I've put number tags on the back of each so that you can refer to the written description of them in the body of this letter. The numbered paragraphs below refer to the numbers on the back of the photographs.

1. I can't remember the date but this is graduation day for one of the students I taught in the Ham Radio class at the Institute.

2. Known to all as "Mr. Radio", Ralph Garrick lived on Homestead Road in Beechwood Park. This was just up the street from me as I lived on Homestead Road when I was a child (about 4 years old). Ralph also managed the Ham radio section at Kass Electronics for a period. I took over his duties when he left, if you remember. Long since deceased, Ralph was well liked and respected by virtually everyone.

3. A front view of W3TKQ right after it was finished by W3QQH. You can see the equipment dedicated to W3TKQ by Collins Radio.

4. Another graduate of the W3TKQ radio class.

5. A graduate of W3TKQ radio class at the new station console on graduation night.

6. Another graduate of W3TKQ radio class.
7. Still another graduate of W3TKQ radio class.
8. The balance of a W3TKQ radio class.
9. The younger contingent of a W3TKQ class. Virtually all of these youngsters became qualified HAMS.

10. What can I say?

11. Sam (K3RTR) visiting me at Kass Electronics. (Never bought anything). Sam did end up as an operator at W3TKQ as time went by.

12. That is Ann Hecht (wife of W3WNC Hy Hecht, now deceased) in the foreground. Gordon (W3APD) can be seen at the far end of the bar. This was at one of our many annual Phil-Mont banquets.

13. This is Hy Hecht (W3WNC) at his operating position out in Broomall.

14. You can see Link Hartz in the center of this photo. Above him to the left is Joe Welsh who we all knew as the local FCC administrator. I went to see Joe when he was last hospitalized. Shortly thereafter, he passed away.

15. Gordon (W3APD) is on the left, the fellow in the center escapes my memory, and Bill is on the right. At one of the banquets, no doubt.

16. Jon Balsch on the left, then Jack Mahoney, then Joe Welsh (deceased), then Al Jorette (deceased). The calls escape my memory.

17. Bill from Broomall in the foreground and John Balsch behind him (difficult to hide Jon Balsch).

18. W3RQZ mobile van with Al on the left, skip one to W3UMK (deceased), skip another to John Mahoney, then Jon Balsch, then past president Lloyd Sherman. Bottom row is Eenie Bartol (deceased) on the left, then Fred Shaw whom we saw at the re-dedication, skip one and then Ernie (W3DSG). This was taken at the field day site up near Norristown probably around 1960 or so.

19. Field day 1967. The Chevrolet station wagon is mine (KA3AHO, ex-W3JYA). The station slips out complete on the plywood base and operates all band 3 thru 30 Mhz. Self powered by Leece-Neville 100-Amp. alternator while in motion.

20. Another view of 'JYA's mobile with son K3LJL at the controls. Field day 1967.

21. Mobiles all lined up on field day, 1967. Many varie-

ties of antennae--mine is a Hustler 10-meter (no doubt on 29.493 Mhz.

22. Tri-bander for W3RQZ installed at field day site in 1967.

23. W3RQZ set up and ready to operate in June, 1967.

24. Hal on the left, Dick (W3UMK, now deceased) on the left at command post for transmitter hunt or something like that.

25. Uncle Bill on left, Bob in center at 'QQH's (I think) during Blurb folding.

26. Very important function. Monitoring the beer at field day site, 1967.

27. Eenie Bartol holding plaque awarded to him as "Most Valuable Member".

28. Clambake at Hershey. Ernie (W3DSG) in foreground, Eenie Bartol behind him.

29. Link Hartz telling it all at the Hershey clambake.

30. Antennae at field day site, 1967.

31. The old reliable W3RQZ generator at field day site in June, 1967.

32. This is a picture of the I built and in which we still live.

33. This is a picture of our lake about 150 feet from the house.

34. This is the ground-level floor of our 3-story timeshare on Camelback Mountain. We usually go there for our vacation but this year we'll probably go to the seashore.

35. This is a partial view of my shack. This is unquestionably the computer section. The Radio section is just opposite and is 100 % Kenwood.

Enough of all that. I will say that you are always welcome here and should you get in the area, please stop and enjoy our hospitality.

I hope the information is interesting to you Ginny and that it will be included in whatever annals you have or plan to have. Make sure that you call if I can be of any further assistance or if you are stopping by.

73,

*Jim*

PAUL  
W3VVS  
Ex W4LBP  
Ex W8VVS

Lansdowne, Pa  
20 March 1994

Philmont Mobile Radio Club, Inc  
Officers, Directors and Members.

Subject: Transfer of Trusteeship of W3TKQ.

The first trustee of W3TKQ was Fred Shaw, W3ADV, from 1952 to 1972, a period of twenty years. It was then transferred to Rolland E Madara, W3PWG, who has held it for 22 years. My license expires 07\16\95 and W3TKQ will also expire then. Of course, I expect to renew mine at that time, but due to a number of circumstances, I would like to have the trustee of W3TKQ changed before that time, and I would like to recommend that Steve Hoch, WU3I, be the new trustee. He is perhaps better acquainted with the station than any other member, and does most of our station upkeep now, and he holds an extra class license which will benefit operation by members and visitors..

As most of you know, at my age I can no longer drive at night and have not attended a club meeting for some time, nor any of the executive meetings. Still enjoy getting in to operate the station every Monday, and I certainly am not going to drop my membership in Philmont which I joined at Cassidy School in 1953 after I was invited by some of the club members when I retired from the Navy and came to Philadelphia as W9NQF and worked some of them mobile from 111 N 63rd, my wife's former home. (I was W3PWG in 48,49, W5RFZ in 50, W9NQF in 51,52 and 53, and got W3PWG back when I moved to this location in 53)

The CAll Book will still list this address for W3TKQ mail for some time of course, and I will continue to acknowledge and mail QSL cards as long as they come to me. We have lots of time before the end of my license period, but I would appreciate it if the board will take this up as soon as possible. The forms have already been ordered, and it should not take long to send them in and get the transfer made. The Navy Mars license will remain in my name for the time being. It does not have to be changed with the other.

I started with W3TKQ in 1972 in the station built by Jim Spencer, then moved it to the other end of the second floor and from there to the former storeroom where it is now located. You may not remember it, but most of those two moves was by yours truly, with very little help. It is certainly nice to see the station as it is now, and to reflect that it has been in operation for 42 years as of this month.

Sincerely,

*Rolland E Madara*

Mr. Jeffery Ollis  
M.A.R.C.  
2700 Elroy Rd. #A-8  
Hatfield, PA 19440

Dear Jeff:

Recently, through the efforts of The Phil-Mont Mobile Radio Club, R. L. Drake Company and Hamtronics of Trevose were kind enough to furnish a complete Drake station to The Franklin Institute. This equipment was donated by these companies for, and on behalf of, ALL AMATEURS in the Delaware Valley.

On Monday evening, September 12th, the new station will be dedicated. Phil-Mont is planning a gala event for this occasion. There will be representatives from both of the companies and the Franklin Institute. In addition, a very informative and entertaining star show, in the Fels Planetarium, will cap off the night.

On behalf of Phil-Mont, I would like to invite your membership and THEIR FAMILIES to join us for this important event. I am sure that the early part of the program, which will be short, will be of interest to the amateurs, and the Planetarium show will be greatly enjoyed by the rest of the family.

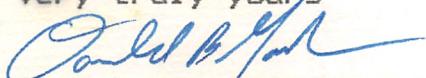

For those who would like to inspect the station, W3TKQ, tours will be conducted from 7:30 until 8 o'clock that evening.

Entrance to the Institute is through the rear door of the building, located at the back of the parking lot. Please have your members enter the lot via the 21st street side.

Your cooperation in helping us publicize this most prestigious event, via your nets and newsletters, will be greatly appreciated. Should you, or any of your members have any questions, please contact me on 147.63-03, or by phone at 215-698-9760.

Looking forward to seeing you on September 12th.

Very truly yours

Donald B. Gordon  
WB3KOJ  
Secretary
